

PETITION TO ABOLISH ABORTION

Whereas, every human being is created in the image of God, the life of each human being begins at fertilization, and the intentional taking of an innocent human life is murder; and

Whereas, the role of government is to uphold justice without showing partiality toward any person or groups of persons; and

Whereas, after the passage of SB612, SB1555, and HB4327, loopholes still exist which allow for the murder of preborn children through self-managed abortions; the undersigned hereby demand

The abolition of abortion in Oklahoma through legislation and enforcement which properly treats abortion as murder and makes preborn children equal under the laws of this state.
